THE FAIR.—The arragements for the Fair next week are being pushed forward with great energy. The ring, halls, stalls, &c., are getting into fine shape, and the energotic officers promise every body who attends a "gay and happy" time. As usual, there will be tip top music on the grounds to enliven things; and the women and all the other

Army Hymn.

BY OLIVER WENDELL HOLIUS. O Lord of Hosts! Almighty King! Behold the sacrifice we bring! To every arm thy strength impart. Thy Spirit shed through every leart.

Wake in our breasts the living fires. The holy faith that warrand our sires; Thy hand has made our nation free; To die for her is serving Thee.

Be Thou a pillared flame to show The midnight sours, the stient too; And when the listile thunders land. Still guide us in its moving cloud. God of all Nations! Sovereign Lord! In 7hy dread name we draw the sword, We lift the smery flag on high. That fills with light our stormy *ky.

From treason's rept, from murder's staint. Guard Thou its folds tiff Pence shall retar Till fort and field, till shore and sea Join our loud anthem. Praise to Thre!

The Union meeting at Flushing on Saturday last was a great success. In numpers present it was ahead of any meeting held in the county this year, and for enthusiasm it was all that could be desired. The fair daughters of Flushing were there in large numbers, to give encouragement to the Union men of the county, and everything passed off in good order, with the exception of some fireing by some of the members of a Flushing home guard company, who, we were informed, were there held in the county this year, and for enthusimembers of a Flushing home guard company, who, we were informed, were there eith their guns all loaded, because, as their leader said, they had been called secessionists too often to go to such places unarmed.—

These are the disciples of Heaton, who has been laboring for months past in this county to get up an armed mob for his protection, and to overawe the Union element in this conditions. The same of the property of the State, that, according to their several creeds and modes of worship, they do keep and observe that day, in order that their like Indiana had a severe skirmish with superior. county; and all they want is the number, in

lications of the day Flushing Townshipalthough she will send a large number of her Union men into the army-will be good in the coming contest for at least one hundred majority for Tod and victory and the whole Union county ticket.

A MEAN BUSINESS .-- We understand the Democratic candidate for Prosecuting Attorney is seeking to impress the minds of the people with the idea that, as Mr. Carroll,

people with the idea that, as Mr. Carroll, the Union candidate, has again gone into the army, he does not desire to be elected Prosecuting Attorney. We have no objection to Mr. Work using all honorable means to accomplish his election; but when he descends to such miserable lies as the above, we would caution him, for fear he might get his fingers burnt.

We desire to say, once for all: Mr. Carroll has gone into the army because he believed it his duty to do so. If the volunteers should not be disbanded during his term of office, the duties of the Prosecuting Attorney will be attended to a great deal better than Mr. Work could attend to them, and Mr. Carroll's family will get the benefit of the salary. And of one thing the public may rest assured: Mr. Carroll will not leave the flag of his country, at the time of its greatest peril, to indulge in a scramble for Attorney will be attended to agrent dealbest ter than Mr. Work could attend to them, and Mr. Work could attend to them, and Mr. Carroll's family will get the benefit of the salary. And of one thing the public may reat assured: Mr. Carroll will not leave the flag of his country, at the time of its greatest peril, to indulge in a scramble for all none of the petty office of Prosecuting Attorney.

If Mr. Work would get the support of the petty office of Prosecuting Attorney.

If Mr. Work would get the support of any hones man, we would advise him to change his mode of electioneering. We had designed saying nothing about Mr. Work in this campaign, but when he and his friends designed spring nothing about Mr. Work will sent the the support of the petty office of Prosecuting Education of the petty of the petty office of Prosecuting Education of the petty of the

Regimental Bands.

Says the Chicago Tribune: A mistaken idea prevails among musi cians that their pay is that of a private, and this error has undoubtedly kept many good musicians from the service. The regimental bands generally consist of twenty-four pieces. One fourth of the whole number receive the pay of a sergeant of engineers thirty-four dollars per mouth; a second fourth, the pay of a corporal of engineers twenty dollars per month; and the remaining half, the pay of engineer soldiers, seven-teen dollars per month, besides rations, clothing and bounty at the end of the war for each rank. These certainly are inducements which should rapidly fill up the ranks of the regimental bands.

Being in constant receipt of inquiries from our
brethren respecting Sewing Machines, with requests to recommend and purchase them, we
nave, in conjunction with some lady friends,
carefully not thoroughly examined the various
machines of practical value for family so wing,
and find those made by the WHEELER AND
WILSON Manutacturing Company to fully combine the essentials of a good instrument, and such
as we can confidently recommend.

Having seen so favorable results from 'belr use,
in our own and the households of our friends, we
are desirous that their benefits should be shared
by all our brethren, and hence have interested
ourselves in their behalf.

This is to certally that I have had in one one of Wheeler & Wilson's Sewing Machines for the last 6 months, and find that it fully comes up to the various recommendations of its proprietors, and well adapted to the wants of a family. In fact, I would not do without it for three times its cost, if I could not purchase another one of the same kind. MRS. JOSH. F. BRANDENBERG. FLERHING, Ohio, April 11, SI.

This is to certify that I have had in use about two years one of Wheeler & Wilson's Sewing Machines, and have used it in all kinds of sewing needed in a family with entire satisfaction, and & has never been out of order, or cost one cent for anything except oil and needles.

Prior to Elias Howe, Jr.'s invention, perented in 46, all attempts to adopt machinery has proved aboritive. His is the basis of all suscessful machines—their differences, however, are marked and important. The committee of the American Institute classified them according to the attemmade and the purposes to which the machine is to be applied in four classes, 1st. 2st. 2d and 4th, a classification indicating the general order of merit and importance.

Class let includes the Lock-Stitch Machine for family use, and for manufacturers in the same range of purpose and material. The committee has assigned this class the highest rank, on recount of the "elasticity, permanence, beauty and general desirableness of the atteiting when done," and the wide range of its application. At the head of this class they place the Witcher & Wilson Machine, and award it the ligness permanenthis has been the uniform award for this machine throughout the country for several years, and we think notificiterested person will dispete its justice and propriety.—[Pathinder.
